

Certificat No. 150824

Applicant : Exel International Group Inc.
Address: 151, Rte 132, Saint-Stanislas-de-Kostka (Québec) Canada J0S 1W0

Products made of any of the following:

*Materials: C11000 (Copper alloy 110), C12200 (Copper alloy 122)
Coatings: ASTM B545 coating of tin, ASTM B700 coating of silver, ASTM B733 Nickel-Phosphorus coatings, without chromate, lead or cadmium treatments.*

Manufacturer : Exel International Group Inc.
Address : 151, Rte 132, Saint-Stanislas-de-Kostka (Québec) Canada J0S 1W0

Certification for EU RoHS directive 2011/65/EU on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment

Result: Products meet the maximum concentration values (MCV) within each homogeneous material without any exemption per the EU RoHS directive.

Substance	RoHS limit : MCV
Lead (Pb)	< 0.10% = < 1000 PPM
Mercury (Hg)	< 0.10% = < 1,000PPM
Hexavalent Chromium (Cr VI)	< 0.10% = < 1,000PPM
Cadmium (Cd)	< 0.01% = < 100 PPM
Polybrominated Biphenyls (PBB)	< 0.10% = < 1,000PPM
Polybrominated Diphenyl Ethers (PBDE)	< 0.10% = < 1,000PPM

* Homogeneous materials are defined as materials that cannot be mechanically disjointed into different materials and are “of uniform composition throughout”. Types include: liquids, plastics, ceramics, glass, metals, alloys, paper, resins and coatings.

EnviroPass believes to the best of its knowledge and expertise that this certification is accurate as of its date of signature. EnviroPass has relied upon statements of agencies, manufacturers, suppliers, subcontractors or others in the preparation of this certification. This certification has been prepared following the guideline of standard EN 50581:2012 - Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances. Within the above defined limitations this certification is valid unless superseded by a revised certification at a later date.
